

Product & price guide 2024

BATHROOM CONCEPTS

We work harder to make your life easier.

THAT'S VERY HANSGROHE

A name you can trust

High manufacturing standards and quality customer service ensure trouble-free installations.

Engineered for excellence

We focus on the smallest details, uniting German engineering with rigorous testing.

Less is more

We've helped reduce water consumption in the shower since 1987.

Designed for life

Outstanding design outlasts short-lived trends. We create timeless products that promise a long service life.

Over 100 years behind it and many more ahead of it

For over 120 years, hansgrohe has been developing forward-thinking designs and clever bathroom solutions.

Our name is your guarantee

5

YEAR

Hansgrohe: quality you can COUNT ON

At Hansgrohe we create top quality products that deliver in both form and function, so you can enjoy them for a long time to come.

We apply rigorous tests and stringent guidelines in our development and production, and that's validated by the independent testing institutes that attest to our high quality workmanship.

Lacquer coating

A specialist lacquer is applied in several steps, to create a durable and intense surface colour

Longevity tested for years of surface durability

Our hand showers last longer because we take longer to create them

ABS resin raw part

Chemically treated

Copper plated

Nickel plated

Chrome plated

IN TOUCH

with our planet

Water is life and **our passion**

We create inspiring moments while protecting this precious element: with water and energy saving technologies.

Hansgrohe publishes Environmental Product Declarations (EPDs) for nine product categories. Providing information about the environmental impact of a product in relation to its entire lifecycle.

Save Water.
Save Money.
Save the Planet.

During the life cycle of a hand shower approximately **1,000 times more CO₂** is emitted during usage than production. Which is why we recommend **EcoSmart technology**. It uses up to **60% less water** than conventional products. Which equates to:

*Calculations based on the Pulsify Select S 105 3jet Relaxation EcoSmart 8.2 l/min hand shower

CoolStart: warm water **only flows when it's really needed**

A four-person household that uses a CoolStart tap for 20 minutes every day for a year consumes 508 kilowatt-hours less energy than it would with a standard tap.

With 500 kWh, you can:

- Make **67,564** slices of **toast**
- **Watch TV 24/7** for at least a year
- Use a **hairdryer** for **500 hours**

*Calculations based on the Rebris S Single lever basin mixer 110 CoolStart without waste set

Meeting the STANDARD

With over 1000 WRAS, KIWA and NSF approved products, AXOR and hansgrohe can ensure a wide offering to suit every design preference and installation requirement.

You can meet compliance with a large selection of products, making specifying easy and giving you peace of mind as we can ensure that our products will help your project meet Regulation 4 of the Water Supply (Water Fittings) Regulations 1999 and Scottish Byelaws 2014.

Hansgrohe prides itself in having all of the relevant approvals, which is why we have a number of products that are TMV2 and TMV3 certified, which means that our thermostatic mixer valves can be used in high risk areas of health care premises.

If you want to learn more, Hansgrohe UK offer three RIBA approved CPD's: "Why WRAS", "Part G" and the newly available "Passport to Sustainability". For more information email: marketing@hansgrohe.co.uk

The hansgrohe group is certified according to international rules and meets the standards ISO 9001 for quality management, ISO 14001 and ISO 50001 for environmental and energy management, and OHSAS 18001 for occupational safety management.

We are members of the following associations:

Easily identify which products are WRAS and KIWA approved by looking out for the logos throughout the brochure.

Online support at **YOUR FINGERTIPS**

We're always on your side. That's why we focus as much on your needs as we do on our products.

Developer concepts

Introducing the new bathroom concepts from hansgrohe.

We have now made it easier for you to select your ideal combination of hansgrohe showers and taps. On the following pages you will find a number of specially curated bathroom concepts. Each one a thoughtful expression of design, function and performance that is synonymous with the hansgrohe brand.

- 14** Modern apartment
- 20** The modern family bathroom
- 26** Compact living
- 32** Timeless elegance
- 38** Biophilic accents

Modern apartment

A contemporary bathroom overlooking the city. The combination of bathroom layout, colour palette and materials complement the design cues of the urban landscape shown in the large corner window.

Look out for the hansgrohe

INSTALLER ROADSHOW

Our installer display vehicles are specifically designed to give you every confidence in recommending and installing hansgrohe.

Working products and interactive displays coupled with installation advice. Experience first-hand the precision engineering and attention to detail that goes into all our showers and taps and to learn just how easy they are to install.

Working product displays

To find out when the hansgrohe installer roadshow will be near you contact hansgrohe or your local stockist.

We don't just keep up with technology - WE PIONEER IT

From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

Spray modes

A unique shower experience thanks to the soft caress of micro droplets.

Ideal for rinsing out shampoo quickly and thoroughly.

Air-enriched drops from a large, wide jet to wash your cares away.

Invigorate your muscles and set yourself up for the day with the powerful IntenseRain water spray.

The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin - and for the soul.

The all-purpose tool for quick results: the revitalising spray lives up to its name.

Focused jet for soothing, feelgood shower.

The concentrated spray simply massages away the exertions of the day.

A concentrated spray, creating a wellness treatment for the home bathroom.

Intense, highly efficient water spray that rinses out shampoo in no time at all.

Versatile shower spray day in, day out. The shower rain pampers with full, light, rich droplets.

Crystal clear and economical, without added air. Ideal for quickly filling large containers and preventing splashing.

Economical and cleansing. Also perfected for fast spraying at the sink.

Full, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

Technologies

Use the Select button to switch spray modes or shower heads; switch off the water at the mixer.

When the handle is in the neutral position, cold water flows automatically.

Mixers and showers use up to 60% less water than conventional products.

Consumes as little as 4 l/min at 3 bar with a specialised flow limiter, water is enriched with air for fuller, plumper droplets.

Enriching water with air produces plump droplets for a velvety touch on the skin.

CoolContact prevents the thermostatic mixer from getting too hot and prevents painful scalding.

Evenly distributes the water over the large spray face to envelope the whole body.

Remove limescale deposits quickly and easily with flexible silicone nozzles.

Defines the space between the wash basin and mixer. The larger the ComfortZone, the greater the variety of uses.

Quality performance on a minimum of 0.2 bar pressure.

With the adjustable shower head, the water jet can be adjusted individually.

With just one hand the shower holder can be freely adjusted in height.

The bath spout can be neatly stored underneath the thermostat when not in use.

Easy water control: with the control dial the water flow can be adjusted easily.

Constant water temperature with integrated control that monitors the water temperature and reacts to pressure changes.

Safety lock at over 40°C. A temperature limitation that ensures safe showering pleasure at all times.

All accessories can be easily clicked onto the wall bar and removed from it.

Assembly possible both with included glue-kit and screws.

If residue has formed on the aerator, simply use a coin to unscrew it, wash it, and put it back on.

The water consumption is regulated to a maximum of 10 l/min. If needed, a higher water flow can be released by simply pressing the EcoStop button.

Products meet regulation 4, part 2 of the Water Supply Regulations.

Suitable for use with combination boilers, subject to the manufacturers performance specifications.

Install with confidence, knowing that once fitted correctly you can forget about call backs.

Products meet regulation 4, part 2 of the Water Supply Regulations.
